## NOW AVAILABLE

The S. S. White AIRDENT is now available to qualified purchasers. However, your "eligibility to purchase" will depend upon your having completed a prescribed post-graduate course in the use of this new item of equipment.

We therefore respectfully urge you, if you are interested in this method of operative treatment, to register for a post-graduate course in this field at your university as soon as possible.

If and when you desire to install the AIRDENT in your office, we are pleased to advise that The L. D. Caulk Company will be able to supply this to you, and will have personnel qualified to fully service your AIRDENT equipment.

We suggest the use of ADA Dental Health Education Material

**1** Upper partial: Cuspid clasp operates semi-independently from saddle, minimizing load, preserving abutment tooth.

**2** Stress relieved at 3 points. Note sleeve or hinge type stress reliever.

**3** One of simplest, most inexpensive and frequently used types of stress relievers.

**4** Universal joint: a round ball accurately cast to fit an equally accurate housing.

**7** Lower involving single open end saddle. Twin attachments provide stability and freedom from lateral motion.

**8** Universal joint also used to give free movement to tooth bearing side of a lingual or palatal bar case.

**5 & 6** Basically same as 4. Versatile attachment lends itself to many types of upper and lower cases.

## BROKEN STRESS *Partials*

Pictured here are a number of broken stress partials recently constructed in our laboratories. Restorations of this type have many advantages over the conventional rigid style, particularly where open end saddles are involved. Relief of stress and strain imposed on abutment teeth contributes immeasurably to functional comfort, adds much to the life of the case. In open end tissue borne saddles, leverage and shock are eliminated. The saddle retains its stability, yet minimizes the abutment load.

Obviously a wide variety of attachment types is essential. With few exceptions the stress relievers we use are the result of Vitallium casting accuracy rather than the use of patented attachments. Most of them are designed and cast to fit case conditions. You are invited to submit study models for suggested designs and estimates, without obligation.

*Contributions:* Manuscripts should be typewritten, double spaced, and the original copy should be submitted. Every effort will be made to return unused manuscripts, if request is made, but no responsibility can be accepted for failure to do so. Anonymous communications will receive no consideration whatever.

Manuscripts and news items of interest to the membership of the Society are solicited.

Forms close on the first and fifteenth of each month. The early submission of material will insure more consideration for publication.

Published semi-monthly by the Chicago Dental Society. Publishing, Editorial and Advertising Office: 30 North Michigan Avenue, Chicago 2, RANDolph 6-4076. Annual subscription \$4.50; single copies 15 cents; circulation 5,500 copies.

## First Monthly Meeting of the 1951-1952 Season September 25th—Stevens Hotel

**MARRIED MEMBERS NEED  
NEW EXCUSE**

Meeting, if we are one of the fortunate ones who secure a ticket.

### **DR. DRESELL BOYD**

September 25th marks the first meeting of the coming year. We are most fortunate to have Dr. Drexell Boyd, Professor of Operative Dentistry at the Indiana University School of Dentistry, as the speaker. The professional journals contain a variety of information on resinous materials used in dentistry. Most information is presented with a commercialistic approach. Dr. Boyd, who has had a diversified experience in research, practice, and teaching, will present information on "Auto-Resins" that has helped practitioners and teachers of dentistry to use these materials with greater benefit to their patients and themselves. Dr. Boyd states, "Since physical properties of self-curing resins are not all that is desired, caution must be exercised to make the most of their favorable qualities. By knowing these qualities as well as physical properties, the operator can use these materials to the best advantage of all concerned." Techniques that will afford the operator an opportunity to accomplish the best results will also be discussed.

The futile words of "sorry, darling, but we didn't start on time" will not be applicable for those who arrive home late from the Monthly Meetings of the Chicago Dental Society in the 1951-'52 season. Those of us who have attempted to convince the little woman that a tardy program of the C.D.S. caused a missed train, had better hide this announcement of our new policy.

President Edwin Baumann, perhaps because of poor train connections to his suburban village, has vowed that all regular Monthly Meetings will definitely *start on time*, even if he has to play gin with the clinician because of our lack of consideration. It is only right that our speakers are afforded the courtesy of promptness, as well as an attentive attitude during the program.

The program chairman, William Rusch, has arranged an excellent series of speakers for the 1951-1952 meetings. Many of these men have heavy schedules and are constantly in demand for their worthwhile material—an added expense to us may grant admission to their Limited Attendance Clinics at our Midwinter

# NEWS OF THE BRANCHES

---

## SOUTH SUBURBAN

A general alert for all members: first meeting is scheduled for Tuesday, October 2, around 7:00 p.m., at Surma's, as usual. George Madory assures us a fine program is planned, with Robert R. Gillis, who was heard on the telephone extension course last winter. Dr. Gillis has done considerable work on the vertical dimension. . . . We are all glad to hear that Lionel Drues is improving after his three weeks at Michael Reese. . . . Simultaneously, Ben Wexler, hale and hearty, is touring Eastern Canada. Henry Cubbon will be glad to compare memories of Quebec with him. . . . Somehow, the various editors of the *FORTNIGHTLY* have unintentionally overlooked the new arrival at Ezio Grossi's house, a lovely son, now eleven months old. Congratulations, Papa! . . . A successful fishing trip was reported by Lloyd Bettenhausen, he's our new C.D.S. director, you know. After vacationing in Canada he stopped off at Smiley Simon's cottage up near Ely, and *they say* that they caught 45 pounds of fish in four hours, all Northernns, all on Daredevils. Despite this story from Lloyd, Smiley insisted he has returned well rested. . . . Capt. Vance Phillips was visiting in Harvey over the Labor Day week end, doing all right down at Chanute Field, where he is in charge of the dental clinic. . . . Rumor has it that Glenn Eberly is not only eating off the mantle but is walking like an old man, after three weeks ranching out in Colorado and New Mexico. . . . Tom Scanlan vacationed in the Black Hills this summer, while Henry Leturno stayed closer to home with a Michigan trip. However, when you see A. W. Brookstra's new Cadillac, you'll think Blue Island is a good place to be a dentist. . . . Golfers, beware! According to Lloyd Bettenhausen, who has been receiving the rough end of the deal, Silvio

Tiberi and Pete Jagmin have a pretty fine golf team worked up, keeping their scores well under the 85 mark most of the time. . . . Taylor Bell has just returned from two pleasant weeks spent in Three Lakes, Wisconsin. . . . Don't forget our first meeting, October 2; see you all there!—*Henry O. Cubbon, Branch Correspondent.*

## ENGLEWOOD

So summer has come and gone, and a cooler, wetter one we have never seen. However, many of the boys have been able to get out of the city and into the warmer and drier climates, but, alas, many of us have spent frigid and very damp vacations in and about the Chicago area. Our yachtsmen, including Harry Kazen and Ralph Rudder, are still hoping for a bit of nice weather before tucking their ships away into moth balls, and, of course, yours truly would like some nice weather, come October 1, when the bow-and-arrow deer season opens. This year for me it's Ontonagon, Michigan, in the Porcupine Mountains. . . . News of what, why and wherefore and to whom comes hard these days but via the grapevine we hear a few choice tidbits now and then. . . . Jerry Wilher, who most of us know has been ill for such a long time, is finally over the hump and we shall see him back at the meetings soon, we hope. . . . Francis and Mrs. Shissler are spending a couple of months in Europe. . . . Vin Milas and family are vacationing in Berrien County, Michigan. I couldn't track down the exact location any closer than that, but it seems that many of the Englewood members have places in that locale. . . . Ed Werre has returned from the Algonquin River area. . . . Bill Shippee is making weekly trips to some very special spot in Wisconsin, and he isn't saying where, for the baths—he

says. . . . We hear that the Anton Jacobs took a tour around the Great Lakes. . . . Our friend Kanchier found out in an expensive way that a car will not stay on a hill without applying the brakes. . . . Vince and Mrs. O'Brien, just recently married, are honeymooning in Bermuda. . . . Ray Gates has only had two vacations this summer and is anxiously waiting for October to come so he can have a fall vacation. . . . Ernie Goldhorn is spending a few days at the Crawford Notch Resort in Vermont. That, I believe, is in the White Mountain Country. From there, he is going to Canada through the Green Mountains and come out in the state of Maine. You're a long way from home, Ernie, so don't get lost in them there mountains. . . . Tom Fleming and family are vacationing in Traverse City, Michigan. It seems as though Tom is trying to catch a fish, but it also seems as though the fish are making a very special effort not to get caught. . . . Axel Alson has been using his vacation to play golf except for a few days spent in visiting a congressman from St. Louis. Somehow we missed Axel's misfortune last January, when he lost his nineteen-year-old son. He was a student at Northwestern University. . . . Vin Milas will have celebrated his twenty-third wedding anniversary Sept. 1. Congratulations, Vin! . . . We understand that Harry Kazen is moving his office to 71st and Cottage Grove. . . . Roseland had a great shortage of dentists this past month with the absence of Ray Van Dam, A. W. Jacobs, Hugh Feeney, A. W. Gumpel, Ernie Goldhorn and L. E. Lucas. . . . Dr. H. L. Hedmark, a recent graduate, is practicing as associate with Axel Alson at 1025 W. 79th St. . . . This winds up your bi-monthly news, and may I suggest that you can help your reporters if you will jot down any news items on a penny post card and send it to the next reporter who will be Marion F. Kostrubala, 5059 S. Ashland Ave. Remember your reporters have to bat out points for a living, too, so help them gather the news.—*Marion B. Hopkins, Assistant Branch Correspondent.*

#### NORTH SUBURBAN

I have two important things to tell you all about before getting into the news items. . . . The first meeting of the Branch will be held October 9th at the Georgian Hotel. Dr. Thompson will be the speaker and you should all buy dinner tickets from Dick Renn in the Carlson Building in Evanston for \$13.50. The food is going to be excellent and air-conditioning will remove smoke from the air. . . . The first Telephone Extension Program will be held in the Encyclopaedia Britannica building in Wilmette on November 12th and there is still time to register. There won't be any dinner in connection and the meetings will be for 1½ hours, starting at 7:30. . . . My travels this month took me to Wilmette first and I called on Walter F. Schur, who is going to Florida in October and went fishing in June at Simpson Sunrise Camp, Wisconsin, where he has been going for 20 years. . . . Paul Bass of Wilmette and J. H. Law of Park Ridge are going to the Michigan workshop on Periodontia and to the next Seminar at Maxwelton Brae. . . . Carl A. Reeb said he was away so much March, April and May that he plans to stay home the rest of the year. He wished to thank all of the dentists who called or sent him flowers during his illness. . . . Alfred H. Fuessle took a short trip in July to Iowa to visit his son who is on leave of absence from the Conservation Department of the State working toward his masters. He returned by way of White Pines Park in Illinois, which he recommends very highly. . . . Earl F. Christie was in Pittsburgh the last of August visiting friends. . . . George Sabin was blessed with a little girl and is a very proud father. . . . Daniel W. Rapp has changed his office and is sharing it with another man and says he will be on a farm around Olney, Illinois in October. . . . I drove on to Kenilworth and called on Robert H. Matthias, who left for Minocqua, Wisconsin the last of August with his family for a couple of weeks. . . . Albert J. Bushey in the same office was on a

ranch in Colorado trout fishing the month of August. . . . I want to mention that George D. Upson of 607 Washington, Wilmette, is feeling better at this time and anyone in that area should stop and see him. . . . Driving on to Winnetka, I called on A. V. Thorsen who had just returned from Rhinelander, Wisconsin, where it rained every day during his stay. . . . R. J. Thorsen is going to Maxwelton Brae Study Course the 16th of September. . . . Bernard W. Thomas was in Springfield, Illinois in August seeing all of the Lincoln Historical sights. . . . The Winnetka, Glencoe, and Kenilworth Study Club had a very successful meeting the 29th of July at the Community House in Winnetka. They elected Michael Pauly, president; A. C. Fonder, president-elect; B. W. Thomas, secretary and James S. Gold of Glencoe, vice-president. . . . Roland C. Williams of Waukegan is in the North Woods for two weeks and L. E. Thomas, the founder of the Lake County Dental Society, is recovering from a cracked hip and working part time. . . . O. B. Kibler, our President, toured the East with his family and Wilson and Mrs. Fisher had a wonderful trip to Europe that we would all like to hear about sometime. . . . "A man is blest not for what he has but for what he does with what he has; his heritage, his wealth, his power, his talents."—W. Alfred Parcell, Assistant Branch Correspondent.

#### WEST SIDE

Alas, the vacation season doth terminate! ! ! ! Hear ye, hear ye and list to this list of vacationers who hath returneth from those outlying wilds of this fair land of ours. . . . Wm. Gubbins has just returned from a short tour of those renowned Smokies of Tennessee. . . . Chester Bellan has vacationed at Colorado Springs, Colo. and the surrounding country and has done some trout fishing in the Rockies. . . . Bob Tuck and Canada have one thing in common. They both had a lot of fish. Or, is that just a fisher-

man's tall tale, Bob? . . . Canada was also the place where Earl Boulger spent the entire summer. Lucky dog! ! ! ! Vacationing in Red Wing, Minn. was Adolph Stark. . . . Sam Rakow, Geo. Walls and J. J. Ehrlich are also recently returned vacationers. . . . Dear members, please notice the change of date for our first meeting of the season which falls on Tuesday, Oct. 2. The speaker of the evening will be James H. Pearce, who will give "A Discussion of Immediate Denture Prosthesis." . . . Franklin Nienstedt and his family were up in Bovey, Minn. at Bittner's Resort, fishing for those elusive muskies. On their return trip they stopped off at Lac du Flambeau, Wis., to visit with relatives. . . . Glen Kiggins vacationed at Mackinac Island and toured upper Michigan and on the return trip, stopped by to visit a cousin at Kenosha, Wis. . . . Yours truly has vacationed according to a new policy and philosophy by taking Friday, Saturday and Sunday week ends off from June through August, believing that "a number of short vacations are more beneficial than one long vacation." Fishing and short tours and attending county and state fairs in the surrounding states constituted these vacations.—Herman Nedved, Assistant "Substitute" Correspondent.

#### NORTHWEST SIDE

If any of you men watch the stock market, you will notice that certain good basic stocks have gone a little higher recently. I refer to one in particular—A.T.&T. We know the reason! In using our alphabetical system of gathering news, a phone is a necessary tool and, believe me, it really brings in good news and gets results. The boys are very cooperative and their comments about the column have been most heartening. . . . Our neighbor to the north, Canada, has been well-peopled this summer by Northwest-siders. . . . Joseph Harlin spent two weeks in the Lake-of-the-Woods area at Kenora. Fishing wasn't discussed but I'm sure he had his fill of the piscatorial art.

#### NEWS OF THE BRANCHES

(Continued from page 8)

. . . Glenn Lahr, our county estate owner, left the horses and cows for a three-week stay in Northern Ontario. . . . A card from Joe Ulis advises that he and his family are enjoying Quebec and surrounding territory. . . . Elmer Imber and his family tried the Colorado heights, including Pike's Peak and the beautiful scenery thereabout. . . . Harry Jacobs is spending his weekends improving his summer home at Lily Lake in McHenry and will soon relax from these chores with a long trip to see what our neighbors in Mexico are doing. . . . M. Schneider gave the fish in Minnesota his bait, latest report being that a few came up for air. . . . Eugene Jaeger spent a two-week furlough from the office waiting—waiting for a stork to bring Marsha Kay. The last week was spent visiting the new little lady and giving his two sons a proper explanation of why they had to wait to see her. . . . Robert Larson spent three weeks away from Chicago. He divided his time between Door County, Wis., and Evergreen, Colo. . . . I know you have had the experience of being hailed by one of the boys from Chicago when you are off vacationing. Russell Johnson of North Suburban was up bass fishing near Land O' Lakes. Although he was well-camouflaged behind a beard of 4 days, I did recognize him. . . . However, Basil Cupis from the North Side had trouble a few weeks ago recognizing our own President-Elect, Gerson M. Gould. Sam Kleiman invited Cupis and Gould to be his guests at the recent golf tournament held at Tam O' Shanter Country Club. Gould lost his admission card and called Cupis over to identify him, Cupis, however, solemnly told the guard that he didn't know the man. After a time, Sam came to the rescue. It would have been ear-splitting to have heard the conversation from that point on. . . . Ben Davidson has added more taxes to his budget. He has recently purchased into a Co-op home in West Rogers Park.—*Folmer Nymark, Branch Correspondent.*

#### NORTH SIDE

The song, *I've Got Plenty Of Nothing*, denotes the news I've accumulated during my vacation. . . . The dental societies are busy doing their bit already. Manley Elliot has arranged for our first Board of Directors meeting and, if I know Manley, things will really be perking when he raps the old gavel. . . . Not to be outdone—the Dental Assistants have already arranged their first meeting for September 11th at 7 p.m. at Rupnecks' and I'm told they are going to have a "bangup" of a program. . . . Seen at one of our dental houses was Harry Hurwitz trying to price down an x-ray unit after having blown out the tube on his old unit. How did it work out, Harry? How's the new machine working? . . . Wonder how our A.D.A. President (our own Harold Oppice) is doing after all these extended journeys of his throughout the Caribbean and to the Far East. It sure would be nice to have a complete report from you some day on all of your experiences, Harold. We will be looking forward to that. . . . Len Foley attended the Study Club meeting at Madison and, like all the rest of the boys that were there, he stayed at the Hotel Lorraine. I know many other of our boys were there but have not been informed just who they were. This was the first time that I have missed the meeting in four years and am really sorry about it because they had men like J. P. Mullins, Howard Raper, J. A. Bliss, and Thomas Burgess as speakers. . . . Again I receive an invitation from the Uptown Dental Forum for every Friday at 12:15 at the Town House and it is reported that they will have a fine speaker at each and every one of the meetings. . . . Knowing that each of you has had a very nice summer and is now back working at the chair, let us all pitch in and try to help out our able president for the year; first of all, by attending the meetings and secondly, by doing the job that you are asked to do. After all, each of us is indebted to dentistry and certainly it is only fair that we do our job for dentistry in return. Let us not think for one

moment that the fruits of harvest only come to those with the seeds in their hands. It comes only to those who are willing to cultivate and to harvest those seeds when God has given them the power to grow. Are the seeds in your hand the type that will reap a golden harvest? ? ? ? —*Herb Gustavson, Branch Correspondent.*

#### WEST SUBURBAN

Meetings at Oak Park Club, corner Ontario and Oak Park. . . . October 9, West Suburban Branch Meeting, dinner at 6:00 and meeting at 8:00. Dr. Kenneth P. Austin, Professor of Prosthodontia at Loyola, will be the essayist; his topic, "The Overlooked 'Plus' Factor in Denture Service" . . . October 1, Round Table meeting, luncheon at 12 noon, meeting at 12:45. The speaker, Dr. Robert R. Fosket, Assistant Professor of Radiology at Northwestern; his topic, "Practical Radiology for Use of the Practicing Dentist" . . . Obtain Round Table tickets from Irwin C. Slaby, Olympic 2-4241; or Anton J. Jirsa, Olympic 2-0284. West Suburban Branch meeting tickets from Ev. Walters, Village 8-0872; or Jos. Komarek, Olympic 2-4180. . . . If you wish to have your wife sit up and take notice of you, talk in your sleep. But, if you wish to have your patients sit up, open their mouths and take notice of you, don't miss these meetings. . . . Charles W. Lewis and family just returned from Stuarts Draft, Va., where they visited Charles Mutner. Several

points of interest were also visited—Shenandoah Valley, including Lee's home, the Natural Bridge, with an extensive drive along the famous and scenic Skyline Drive—a visit to Washington, D. C., and a nice visit with his brother John and family, with Ralston Lewis joining them in Virginia. Sounds like a wonderful trip. . . . Here's a good man to talk to us about European conditions. Grandpa John C. Dumelow visited England, Holland, Belgium, etc., the trip taking over two months. Just a beautiful trip—weather, girls, scenery. Nice is nice and Paris is not bad. After his arrival home, his daughters presented him with two more grandchildren—making a total of four, and Gramps is doing okay. . . . George H. Welk and family spent an enjoyable vacation at Mears, Mich. . . . G. Sprafka had a pleasant 3-week vacation visiting his dad in South Dakota, then motoring in his 1951 98-Olds to his Lake-of-the-Hills summer home. Fishing was plentiful. . . . Just had a cute patient who said it was the first time she ever used a wash mouth. . . . My good friend and supporter, Asa LaGrow, was confined to St. Luke's for a checkup after a siege of influenza. Chase that bug away, Asa, we need men like you for our big program this year. . . . F. Robeson and many West Suburban dentists attended the beautiful Shriners' parade and festivities in Aurora. 40,000 people gazed at Roby who was chosen as a doctor with ambulance, gas, forceps, etc. You will hear more from Roby about the Dental Relief Program. You fellows won't get off so easy this year if I know Roby. . . .

## PROTECTION YOU CAN "BANK" ON!!

We urge you to check up on your insurance needs before some mishap "blots" out your security. Our policies and Bonds GUARANTEE protection against Loss of Income, Hospital Expense, Fire, Burglary, Forgery, Auto Accidents, Injury to your employees, and the public. Ask us about our new low-cost Retirement Savings Plan and Juvenile Educational Policies. Our Mortgage Redemption policy costs so little but means so much.

AGENTS FOR THE DISABILITY AND HOSPITAL PLANS OF THE CHICAGO DENTAL SOCIETY

A.D.A. President Harold Oppice (my former teacher) and Stanley Tylman just returned from Japan with some wonderful reports. Somebody said I was old enough but not smart enough to be Harold's teacher. That is not so—I am only 49 and have my birth certificate to prove it.... The secretary of the Chicago Dental Society, Sam Kleiman, is sure a hard worker. Sam talked to the senior students at Loyola on "Dental Ethics." I happened to be present and let me tell you, you could hear a pin drop during his forceful speech. Sam is also president of the Alumni Association and has resumed teaching at the Loyola University School of Dentistry. In spite of being such a busy man, Sam was kind enough to call and tell us he enjoyed our column. Thanks a million, Sam, and please call on us any time you need any help that we can give.... Our Oak Park dentists played an important part in the jubilee celebration. Ed Black had charge of Children's Day; Robert Atterbury worked with Ev Walters on an amateur vaudeville show for

Neighbors' Day; and many other dentists did their share.... Warning! Should a man with a six-tooth temporary bridge report to your office, please notify Ed Moore, 1142 Chicago Avenue, Oak Park, Euclid 6-6351.... "Education," said Dr. John E. Hibben, former president of Princeton University, "is the ability to meet life's situations unselfishly.".... See you at the meetings. Please 'phone me for information about reservations for lunch and dinner or maybe to give me a little news. MERRIMAC 7-6292.—*Olaf S. Opdahl, Branch Correspondent.*

#### KENWOOD-HYDE PARK

Labor Day has come and gone. The fall season is upon us, with vacations ending for many and then preparations being made for the A.D.A. meeting in Washington, D. C., in October.... Let us not overlook our own meetings at home—the Society meetings at the Stevens and Kenwood-Hyde Park meetings at the Sherry Hotel.... For those who over-

looked our column last time, here is the Branch calendar again for the ensuing year. . . . October 2: Dr. R. G. Pinkerton on "Fixed Bridgework, Stressing Pin Inlays." Our first meeting—come one, come all! Dinner at 7:00 p.m., cocktails before dinner. . . . Dr. Eugene Skinner on November 6 on "Plastic Fillings" . . . December; Drs. Budill and Cotter . . . January; Denture Research Group . . . March; McDonald from Indiana University on "Children's Dentistry" . . . April; All Clinic Day . . . This is a well-rounded program for the year, so come and attend these meetings for practical information and good fellowship. . . . News of our members remains as always rather scarce as we, from time to time, really hear from no one. . . . However, through the grapevine I hear Cliff Randall visited Cliff, Jr., who is in the Dental Corps at Camp McCoy, Wis. . . . Harry Hartley is off again to Pickerel Lake, Wis. Harry really lives right, this working all summer is not all it is said to be. . . . Byron Tovstein has just received a promo-

tion from the Navy to Lt. Senior Grade. He is stationed in California. . . . Willard Johnson has gone to Savannah, Ga., to attend his cousin's wedding. . . . Barney Nathan, Ben Herzberg and your scribe attended the 200-mile AAA championship race at Milwaukee, Wis. Sometimes dentistry has its own compensation when you see what other people do to make a living. We enjoyed a wonderful race and a grand time. . . . Ken Johnson writes that everything is big in Texas, even the heat has lasted two months now at more than a hundred. While he interned at the County Hospital, he thought he was busy in the Oral Surgery Department, but he has more surgery with even greater variation at Camp Hood, Texas. . . . Let's finish this war business and get back home. This goes for all the boys in both the Army and Naval Services. . . . This column will be written for the next two issues by Howard Strange; call him with some information for these lines.—*Larry Johnson, Assistant Branch Correspondent.*

A partial denture should —

**"PRESERVE**

all remaining teeth

not just

**RESTORE**

the missing ones"

That's the Idea in Ideal restorations, be it  
TICONIUM-GOLD or BENT WIRE.

**A PARADOX!**

They say EXPERIENCE cannot be purchased—yet—we have it for sale. For instance, after over 20 years of constructing IMMEDIATE DENTURES we should know most of the answers—try us.

**Never before could you do  
so much for your denture patients**

Specify Trubyte Bioform Teeth for your next full or partial denture and see for yourself how natural and how alive they look in the mouth. The forms of Trubyte Bioform Teeth are all new—so are the blendings in Trubyte New Hue Shades and the "vacuum fired porcelain" of which Trubyte Bioform Teeth are made.

trubyte

Bioform®

teeth

the first "vacuum fired porcelain" teeth

**The Result of Recent Biological Discoveries and of Important Developments in the Manufacture of Porcelain Teeth...**

**NEW  
IN  
EVERY  
WAY**

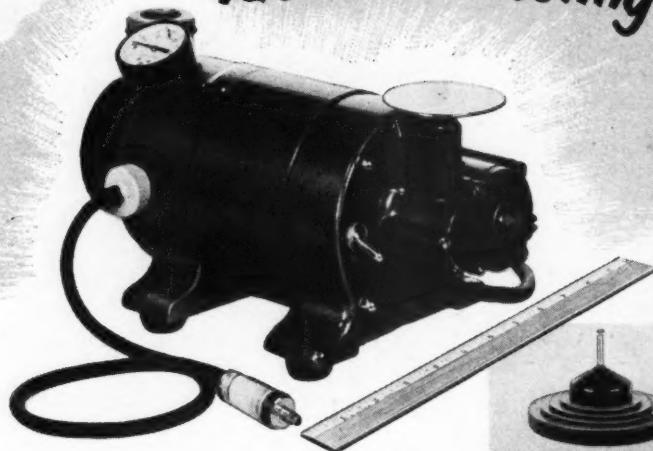

- Actual copies of attractive natural teeth
- Each size a duplication of another set of natural anteriors
- Harmonize with the outline form of the face, profile and cheek planes
- "Vacuum fired porcelain"—denser, stronger and more "alive" in appearance
- New blends in Trubyte New Hue Shades—react to all lights in much the same way as do natural teeth
- The shades are approximate reproductions of Trubyte New Hue Shades. There are slight variations in the shades of Trubyte Bioform Teeth as is characteristic of fine, natural teeth
- New pin position—increases the retention of the tooth and adds to its strength
- The fully formed linguals are comfortable to the tongue and aid phonetics

**TRUBYTE BIOFORM TEETH ARE AVAILABLE FROM YOUR TRUBYTE DEALER**

## This New DEE Unit really simplifies vacuum investing

In the short time since its introduction the new DEE Motorized Vacuum Investing Unit has received enthusiastic approval from both dentists and laboratories. This is not surprising, for the unit is the product of long and critical study of requirements plus exacting experiments and tests in the process of its development. The result is a design that *reduces vacuum investing of inlays to simplest terms*. By following the directions supplied with each unit, dentists and dental assistants can readily obtain clean, accurate inlay molds ready for gold casting. The unit can also be used for vacuum mixing of plaster, artificial stone, and investment for other uses to insure a dense bubble-free mix.

Measuring only  $5\frac{1}{2}'' \times 11'' \times 5\frac{1}{4}''$  high, the Unit requires very little space. It is built to give long, trouble-free service. Full details about this revolutionary new unit will be sent you on request.
